

## A Message from Susan Reed, Editor-in-Chief Golf For Women Magazine

As another year ends, I applaud Rally for the Cure® and all that has been accomplished in support of Susan G. Komen for the Cure. The commitment of you and your fellow golfers who participate in Rally for the Cure, are making a huge difference in the lives you touch with the breast cancer awareness message distributed through your Rally events. We are told that the breast cancer death rate has been dropping 2 percent annually, largely due to earlier detection. Together we are making a difference.

Golf For Women has proudly partnered with Rally for the Cure since the very first event in 1996 and we continue to support the program and message editorially and organizationally as we move into 2007. With more than 3,300 events in 2006, the message is clear — you care about the people around you and are exposing them to a message that might just save a life.

I hope you have enjoyed the breast health page that is provided by Komen for the Cure in each issue of Golf For Women — and that you continue to look forward to the message within each issue.

Thank you for all you do in support of the Rally program and Komen — let's continue to work together until breast cancer no longer takes lives — and a cure is found.
